

Visitors on Campus: Guests are allowed on campus and in common spaces and dining rooms. We ask that visitors still follow check in protocols at the security desk. You may have family members stay overnight with you in your home. We have one Guest Room available currently. Guests may dine with you in The Landing or the Main Dining Room. We do ask that anyone coming to the dining room is fully vaccinated, and the same for any family or overnight guests in your homes. As a reminder, Prince George's County has mandated masks be worn indoors. We ask that everyone- residents, team members, visitors, and vendors- wear a mask when inside public areas at Collington, regardless of a person's vaccination status. Masks are not required to be worn outdoors.
